

Data Warehouse

Make better decisions faster >>>>

Trellance Data Warehouse's objective is simple: to enable your credit union to become a data-driven organization. Our cloud-based solution is member-centric and automatically ingests and organizes data from a variety of credit union data sources.

Our library of pre-built dashboards allows your decision makers to quickly understand member behavior and access deep analytics without requiring any technical resources. Dashboards are fully customizable by each credit union user, so the information you need to run your business is readily available at all levels of your organization. Start leveraging your data to further the mission of your credit union.

About

Trellance is a leading technology partner for credit unions, delivering innovative technology solutions to help credit unions achieve more. With a comprehensive suite of analytics, cloud and talent solutions, the Trellance team ensures credit unions increase efficiency, manage risk, and improve member experience. As a tech partner, Trellance ensures that credit unions have access to the latest generation of fintech solutions, filled with powerful tools such as artificial intelligence and machine learning.
